

# Accelerator Activity Coordination Meeting

- Date of Last Report on CD activities in AD
  - August 3, 2004
- Today -
  - Proposal for MI BPM project
  - status of ongoing projects
    - TeV BPM project
    - Blastman DB
    - TeV IPM project
- Other projects -
  - SDA
  - Tune Fitter
  - TeV BPM software - orbit calculations etc
  - Support for CD/AD software
  - Simulations

## AD Projects in CD (All projects listed in Feb.04 report)

- **Booster Monitoring project** - support
- **Pbar flying wire upgrade** - support
- **Tevatron Ionization Profile Monitor (IPM) Project** - ongoing
- **SDA Analysis** - reduced level of effort; request for more support
- **SDA Tools** - support
- **Java Controls Application Tutorial** - complete
- **BLASTdb Accelerator Magnet Database** - phase 1 complete
- **Beam Smoothing Tools** - on hold
- **Tevatron Cusper Software** - on hold
- **Tevatron Tune Fitters** - 0.5 FTE
- **Run II Luminosity Upgrade Project - Project Management** -  
- Moved to AD
- **Booster IPM Calibration and Studies** - ongoing
- **MCR software project** - request withdrawn
- **Controls** - Vax migration project?
- **SciDAC Accelerator Simulations** - ongoing
- **TeV BPM project** - ongoing
- **VXWorks support**
